MODERN STANDARD COFFEE

GREAT COFFEE FOR EVERYONE

The Story of Modern Standard

After several years of working in the coffee industry, a qualified Q Grader, UK Cup Tasting Champion and World Barista Championship judge, Lynsey recognised a gap in the market for a full service, speciality coffee roaster. Armed with enthusiasm, coffee knowledge and industry experience, she started Modern Standard Coffee with an aim of raising the quality of coffee across all channels.

By keeping the supply chain as short as possible, working with the World's leading farmers and sourcing, roasting and packing ourselves, we can offer a transparent speciality coffee at an accessible price. Great coffee for everyone – that's the Modern Standard.

One of the few female founded and run coffee businesses in the UK, Modern Standard is the fusion of speciality coffee passion and commercial coffee experience.

Quality Espresso Coffee

- Expertly Roasted coffee beans
- 100% Arabica coffee
- Ethically sourced
- Single origin or Espresso Blend
- Wholebean Medium Roast
- Awards winning – Momentum Espresso

CONCEPT PACKAGING RANGE

Our coffee cups are made using PLA (plant-based Polylactic Acid) providing an environmentally friendly approach to our hot beverage packaging.

COFFEE CUPS

use a plant-based Polylactic Acid (PLA) lining, environmentally friendly alternative to the conventional PE lined cups.

COFFEE CUP LIDS

use a plant-based Polylactic Acid (PLA), environmentally friendly alternative to the conventional PS coffee cup lids.

Further items available include; wooden stirrers & napkins.

MONTHLY RENTAL SOLUTION

- Available as a monthly rental over a 3 year period.
- Required Cup Rate - from 20 cups per day - the more you sell, the more profit you make.
